

I am writing concerning K-LOVE. They serve me as a resident of Lincoln, Nebraska by giving me positive and encouraging music to listen to. They have a wonderful effect on this community, and I listen to no other station but them. They are phenomenal! They are a contemporary station with news and weather updates along with fantastic, clean music to listen to that never brings me down. If it were to be replaced by an LPFM station, I would greatly miss it, and its positive effect on the community would be missing. It is in the public's interest to maintain K-LOVE's station so that only clean, uplifting music is spread across our air waves. There's no trash talk or vulgar or obscene words used on this station. It is fabulous. Thank you for taking time to consider what a fantastic station K-Love is!
